Our Environmental Charter (EN)

Dear,
We are happy to welcome you to our establishment.
Since its creation, we have given a central place to respect for the environment.
For us, for you and for future generations, we do everything we can to minimize the impact of our activity on the environment.

WE RAISE AWARENESS TO OUR TEAMS AND OUR CUSTOMERS

- ✓ Our environment manager has followed training days on the environment and more broadly CSR
- ✓ Our teams are trained in eco-friendly gestures to respect in their daily tasks (training from 3.5 to 7 a.m., meeting on the establishment's environmental policy, posters, job descriptions with listing of points of vigilance.)
- ✓ On our site, and the welcome booklet, you will find information on sensitive natural areas, and the rules to respect in order not to disturb the local flora and fauna
- ✓ We offer many alternatives to limit car travel: contacts with muscle or electric bike rental companies (we have premises), public transport, provision of walking and cycling plans. Suggestion to teams to consider driving together if possible. Displays of distances from strategic points on foot / by bike
- ✓ Raising awareness among our customers via displays on the water (elevator / shower), eco-responsible gestures in the rooms, and at reception, in the digital welcome booklet

WE SAVE WATER AND ENERGY

(30%less in – electricity 2022 VS 2019!)

- ✓ We have installed water savers/pressure reducers on the taps/showers (in progress for showers) and the flushes are dual flow or 6 L
- ✓ Monthly monitoring of our water and energy consumption
- ✓ We replace each bulb with an LED bulb, this has already been done in more than 75% of the bulb fleet
- ✓ In the common areas, the lights operate on a timer or detectors. Instructions were sent to watchmen to only leave those on detectors at night.
- ✓ Devices that can be turned off are turned off. The replacement of devices is studied with the prism of their environmental impact
- ✓ Raising awareness among the team to report any leak immediately
- ✓ Adaptation of heating - study in progress of connected faucets
- ✓ Removal of mini bars in January 2020 > Provision of shared refrigerators
- ✓ Sleep mode on our elevators is activated
- ✓ ⎪ Instructions to teams to limit energy and water consumption with washing machines and dishwashers
- ✓ Installation of thermal curtains in 2023
- ✓ Use of eco-labeled stationery (reams), toilet paper, Kleenex
- ✓ Our launderer, located 10 km away, has implemented significant measures to reduce its water consumption
- ✓ Signature of green electricity contract from October 2024
- ✓ Carrying out an energy audit
- ✓ Procedure for checking appliance seals (ovens, refrigerators, freezers)

WE LIMIT AND SORT WASTE

- ✓ We have set up several selective sorting points (rooms, bar, sea entrance, street entrance, and at different stations)
- ✓ We sort bio-waste, in partnership with La Petite Boucle since 2022
- ✓ We sort soaps in partnership with Sapocycle, and cigarette butts, in partnership with MéGo
- ✓ Elimination of disposable mugs (courtesy tray), placemats in 2022, and two flavors of mini jam jars
- ✓ Removal of packaging for sugars, mini nutella, and other jams in 2024: move to bulk or larger containers
- ✓ Sorting instructions for our customers are in our welcome booklet
- ✓ We do not have disposable tableware, with the exception of takeaway coffees from the bar. Water bottles for loan or sale are available at reception
- ✓ Procedure for other waste: batteries, light bulbs, inks, clothing, items forgotten after a year, etc. at reception.

WE ARE ATTENTION TO THE WELL-BEING OF OUR CUSTOMERS

- ✓ A vegetarian dish in our Ty Bocal snack solution
- ✓ Our breakfast buffet includes a good portion of local or organic products
- ✓ The products used for room maintenance are all eco-labeled, which offers better air quality and less health risk.
- ✓ For the well-being of our teams, and yours, we have banned bleach, which is irritating to the respiratory tract and toxic to aquatic environments (with very rare exceptions)
- ✓ Sorting instructions for our customers are in our welcome booklet
- ✓ We do not have disposable tableware, with the exception of takeaway coffees from the bar. Water bottles for loan or sale are available at reception
- ✓ Our laundry, located 10 km away, uses eco-labeled detergent

And more: ocean fresco, commitment from local actors (2023: Sinoo, participation in two fairs, loan of troop room Emergency exit, Participation in project kit-Class of Ce2 Terre Neuvas, Cancale, in connection with the biodiversity), anti-waste actions (To Go to Good partnership, too few anti-waste pastries at the bar, awareness poster at breakfast.
We are continuing our efforts and studying future areas of progress: we are in a process of continuous improvement.

In order to realize our commitment and engage in a process of continuous improvement, we are in the process of obtaining the Green Key label.
The Clé Verte label distinguishes tourist accommodation and restaurants engaged in a voluntary, efficient and dynamic approach. The label is awarded annually by a jury made up of tourism and environmental experts and professionals
